

## WORLD WETLANDS MONTH

Saturday volunteers needed for restoration planting!

**We are kicking off our planting season** and we hope you will join us! World Wetlands Day is February 2 and we will be celebrating **every Saturday from January 31-March 14**, planting a variety of native shrubs and trees on our wetland preserves. Snacks and tools provided. Bring a friend, plant a tree, and take a picture to submit to the international photo contest (details below)! See our full list of volunteer events to choose a time to come celebrate World Wetlands Month by planting with us!

**During the month of February**, we will be co-hosting a worldwide wetlands **photo contest** for 15-24 year olds with the Ramsar Convention Secretariat (a group formed after the adoption of an international treaty to ensure the conservation and wise use of wetlands everywhere). Submit your wetland photo here: <http://www.worldwetlandsday.org/> during World Wetlands Month and win a trip to a wetland of your choice, anywhere in the world! Come to one of our events to capture a beautiful wetland moment to submit.

**To sign up, ask questions about an event, or if you are interested and under 18, contact our volunteer coordinator Courtney at [courtneywilson@wetlandsconservancy.org](mailto:courtneywilson@wetlandsconservancy.org).**

**Saturday, January 31, 2015**
