

sustainableRIVER

NSF Research Experiences for Undergraduates (REU) Program

www.SustainableRIVER.org

Participants will:

- Investigate different invasive elements and cultural and natural stressors affecting the Missouri River between May 29, 2018 and August 3, 2018.
- Conduct independent research, participate in field trips, produce a team project, and present your findings.
- Receive a \$5,500 stipend plus more than \$1,000 for food, housing, and travel.
